MOBILITY REPORT

COUNTING LOCATIONS

As part of our mission to make Hudson Square a place for people, the Hudson Square BID measures pedestrian movement, subway ridership, and Citi Bike usage throughout our neighborhood to better understand how people travel to and within Hudson Square. According to our new [2025 Neighborhood Survey](#), nearly 90% of Hudson Square's workers and residents commute by public transit, and our Quarterly Mobility Report builds on this data with regular, district-wide insights, helping us better understand how the neighborhood moves over time. Our counting locations are mapped below.

Count methodology for each location varies. [MRI onLocation](#); [MTA Open Data](#); [Citi Bike System Data](#)
